City of Fairburn 56 Malone Street Fairburn, GA 30213

770-964-2244 FAX - 770-969-3484

Honorable Mario Avery, Mayor and Members of the City Council City of Fairburn Fairburn, Georgia

Ladies and Gentlemen:

The comprehensive annual financial report of the City of Fairburn, Georgia (the "City"), for the fiscal year ended September 30, 2011, is hereby submitted. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures rests with the City. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various funds of the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

The comprehensive annual financial report consists of management's representations concerning the finances of the City of Fairburn. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City of Fairburn has established a comprehensive internal control framework that is designed both to protect the City's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Fairburn's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City of Fairburn's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The comprehensive annual financial report is presented in three sections: introductory, financial, and statistical. The introductory section includes this transmittal letter, the City's organization chart and a list of principal officials. The transmittal letter includes general information about the City, services provided by the City, the organization of the City, economic condition and outlook for the City, the major events of the fiscal year and other information including the audit and acknowledgements.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

The financial section includes the independent auditor's report on the financial statements, management's discussion and analysis, and the basic audited financial statements with combining and individual fund statements and schedules. This section also includes required supplementary information.

The statistical section contains selected historical financial data, debt statistics, and the miscellaneous social and economic data generally presented on a multi-year basis.

General Information – City of Fairburn

The territory on which the City of Fairburn was originally located was ceded to the State of Georgia by the Cherokee Indians in the treaty of Indian Springs in 1825. U.S. Government records show a settlement as early as 1830, but the City's real growth started with the construction of the Atlanta and West Point Railroad in 1854. The City of Fairburn was incorporated February 17, 1854 and adopted its City Charter on August 3, 1925 (Georgia Statutes 1925).

It is believed that Fairburn was named for a township in the County of York, England by Williams McBride, the City's first postmaster, to honor his ancestral hometown. Fairburn was once the county seat for Campbell County, Georgia, starting in 1870 until the County was dissolved in 1931. A telephone system was installed in 1905 and the City received electric lights in 1911. Fairburn gained worldwide distinction in 1921 by erecting the first monument to World War I dead.

Services Provided

Services provided by the City under general governmental functions include police and fire protection, planning and engineering, code enforcement, street maintenance, traffic control, and parks operations and maintenance.

In addition, electric, water, sewer, and storm water services, educational complex rentals, and solid waste collection and disposal services are provided (the latter by contract) under an enterprise fund concept. User charges are set by the City Council to ensure adequate coverage of operating expenses and payments on outstanding debt. The City's primary sources of General Fund revenue continue to come from ad valorem taxes, sales taxes, and franchise fees.

The Organization of the Government

The City has a Mayor and Council – City Administrator form of government with a mayor and six council members in the governing body. The Mayor, while a part-time position, is the City's Chief Executive Officer. The City Administrator is a full-time position appointed by and serving at the pleasure of the City Council.

The City Council annually adopts a balanced budget and establishes an ad valorem tax rate for the support of City programs. The City Administrator has the responsibility of administering these programs in accordance with policies and the annual budget adopted by the City Council.

Economic Condition and Outlook

As a part of the metropolitan Atlanta area, Fairburn is positioned for significant economic growth with easy access to markets in the Northeast, South and Midwestern States by air, rail, or highway. The City of Fairburn is located ten miles south of Atlanta Hartsfield-Jackson International Airport, the world's busiest airport. A mainline operated by CSX provides access to their growing Fairburn intermodal yard. The community is bisected by Interstate 85 and is also in close proximity to the intersection of I-75, I-85, and I-20 in downtown Atlanta.

Fairburn works in partnership with a wide range of organizations to market the area to potential developers. The South Fulton Chamber of Commerce works to promote the area and encourage development, hosting an annual Developer's Day to showcase development opportunities in and around Fairburn. The Economic & Community Development Group of the Electric Cities of Georgia is also an important partner in marketing the City to developers and in helping to provide extensive support to existing utility customers.

Annual investments in infrastructure improvements have been made over the years to maintain a functional level of service capacity and reliability. As a member of the Municipal Electric Authority of Georgia (MEAG) (the "Authority"), Fairburn provides very competitive and dependable electric service. The City is also a member of the South Fulton Municipal Regional Water & Sewer Authority, along with Union City and Palmetto. The Authority is currently constructing a water reservoir and water treatment plant near the Chattahoochee River to the west of the City limits in rural Fulton County.

Rebounding from the impact of the recession, the City experienced renewed interest in commercial and industrial development beginning in late 2010, especially for retail space along the Highway 74 corridor and for distribution space in the Southcreek area of Bohannon Road and Oakley Industrial Boulevard. As evidence of this trend, the March 2-8 edition of the Atlanta Business Chronicle indicated that the two largest industrial leasing deals in metro Atlanta during 2011 occurred in Fairburn, Georgia.

Fairburn is also home to the Georgia Renaissance Festival, a re-creation of a 16th-Century European Country Faire. Located on 120 acres just minutes from downtown, the Festival attracts more than 150,000 weekend visitors from mid-April to early June.

Major Events in 2011

A general obligation bond for \$10.415 million was overwhelmingly approved during the November, 2010 general election. The City used over \$2 million of those funds to purchase the 140-acre Duncan Park from Fulton County in late 2011. Already home to a dazzling Astroturf football field provided by Fairburn's favorite son Eric Berry, the park will soon enjoy renovations to its indoor swimming pool and boast of a new playground, two new concession/restroom buildings, expanded parking, and three new picnic pavilions.

While the sagging metro-Atlanta economy and housing industry have reduced local revenues somewhat, the City continues to operate with a balanced budget without personnel layoffs or cuts in service levels. The City plans to continue to improve the quality of life of the community by maintaining strict spending controls.

Already home to manufacturing and warehousing facilities for household names such as US Foods, Toto, Owens-Corning, Smuckers, and Nestle-Purina, Fairburn welcomed Clorox, Electrolux, and Aaron Rents to town during early 2011.

In early 2010, downtown Fairburn, centered at the intersection of Highway 29 and Highway 92, suffered the loss of three commercial buildings and experienced severe damage to a fourth, the Amoss Pharmacy building. The now-vacant land and adjoining parking (valued at \$280,000 at the time of donation) were donated to the City in late 2010. Renovation of Fairburn's landmark building was completed in early 2012, enabling the return of Oz Pizza. Design work is now underway to construct a park and stage on the site of the donated land.

The City's educational complex at the north end of town continues to grow, with Georgia Military Academy's (GMC) enrollment now over 800 and climbing, while Brenau University's nursing program is scheduled to open in January, 2014. Another classroom building for GMC is being designed, and a third school is looking to open a satellite location at the complex as well.

Financial Information

Management of the City is responsible for establishing and maintaining an internal control structure designed to ensure that assets of the City are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of the financial statements in conformity with generally accepted accounting principles. In developing and evaluating the City's accounting system, consideration is given to the adequacy of internal controls. Internal controls are designed to provide reasonable, but not absolute assurance regarding: (1) the safeguarding of assets from unauthorized user disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets.

Independent Audit. State statues require an annual audit by independent certified public accountants. The accounting firm of Mauldin & Jenkins, LLC was selected. The independent auditor's report on the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information and schedules is included in the financial section of this report.

Awards. The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its comprehensive annual financial report for the fiscal year ended September 30, 2010. This was the twenty-third consecutive year and the twenty-sixth time that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, the City published an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments. I would like to take this opportunity to express my appreciation to you, the Mayor and Council, for your guidance and support in the preparation of this report. I would also like to express my sincere appreciation to the City staff for their assistance and cooperation during the year to effect a better accounting and reporting system for the City of Fairburn, for without this assistance and cooperation this report would not have been possible.

Respectfully submitted,

Tom Barber, CPA, MBA City Administrator

April 20, 2012

Certificate of Achievement for Excellence in Financial Reporting

Presented to

City of Fairburn Georgia

For its Comprehensive Annual **Financial Report** for the Fiscal Year Ended September 30, 2010

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and Members of City Council City of Fairburn, Georgia

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the **City of Fairburn**, **Georgia** as of and for the fiscal year ended September 30, 2011, which collectively comprise the City of Fairburn, Georgia's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Fairburn, Georgia's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Fairburn, Georgia as of September 30, 2011, and the respective changes in financial position and cash flows, where applicable, thereof and the budgetary comparison for the General Fund for the fiscal year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 1, the City implemented Governmental Accounting Standards Board (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, effective October 1, 2010.

In accordance with *Government Auditing Standards*, we have also issued our report dated April 20, 2012, on our consideration of the City of Fairburn, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and Schedule of Funding Progress (on pages 3 through 11 and page 51, respectively) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Fairburn, Georgia's basic financial statements. The combining and individual fund financial statements and schedules, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Fairburn, Georgia's basic financial statements. The introductory and statistical sections, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Mauldin & Jenluins, LLC

Atlanta, Georgia April 20, 2012

As management of the City of Fairburn (the "City"), we offer readers of the City of Fairburn's financial statements this narrative overview and analysis of the financial activities of the City of Fairburn for the fiscal year ended September 30, 2011. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in the financial statements and the notes to the financial statements.

FINANCIAL HIGHLIGHTS

Key financial highlights for fiscal year 2011 are as follows:

•The assets of the City of Fairburn exceeded its liabilities at the close of the fiscal year by \$37,548,593 (net assets). Of this amount, \$1,983,434 is restricted and \$4,784,932 is unrestricted and may be used to meet the City's ongoing obligations to citizens and creditors.

•The City's total net assets decreased by \$(142,524) from the prior fiscal year. Of total net assets, \$30,780,227 is invested in capital assets, net of related debt as compared to \$32,084,667 of the prior fiscal year.

•As of the close of fiscal year 2011, the City of Fairburn's governmental funds reported combined ending fund balances of \$10,948,572, an increase of \$10,242,381 from the prior fiscal year. The increase is primarily due to the issuance of \$10,415,000 of general obligation bonds.

•At the end of the current fiscal year, total fund balance for the General Fund was \$546,621, an increase of \$455,010 over the prior fiscal year.

•The City issued \$10,415,000 of general obligation bonds for the purpose of acquiring and upgrading park facilities, construction of an additional fire station as well as downtown enhancements.

•The City, through its Development Authority, refinanced \$7,958,409 of the 2008 Education complex bonds and acquired \$5,875,910 of additional financing to enlarge the facility.

•Transfers from the Enterprise Funds to the General Fund decreased from \$3,689,629 in fiscal year 2010 to \$2,865,000 in fiscal year 2011, a reduction of (\$824,629).

OVERVIEW OF THE FINANCIAL STATEMENTS

This Discussion and Analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to those financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business. All governmental and business-type activities are consolidated to arrive at a total for the Primary Government. There are two government-wide statements, the statement of net assets and the statement of activities, which are described below.

The statement of net assets presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. It is important to note that this statement consolidates the governmental fund's current financial resources (short-term) with capital assets and long-term liabilities.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The governmental activities of the City include general government, judicial, public safety, public works, culture and recreation, and planning and development.

The business-type activities of the City include electric, water and sewer, educational complex, stormwater, and sanitation. The City's government-wide financial statements are presented on pages 12 and 13.

Reporting the City's Most Significant Funds

Unlike government-wide financial statements, the focus of fund financial statements is directed at specific activities of the City rather than the City as a whole. Except for the General Fund, a special revenue fund is established to satisfy managerial control over committed resources or to satisfy finance-related legal requirements established by external parties or governmental statutes or regulations. The City's fund financial statements are divided into two broad categories, namely, (1) governmental funds and (2) proprietary funds.

Governmental Funds

Governmental fund financial statements consist of a balance sheet and statement of revenues, expenditures, and change in fund balances and are prepared on an accounting basis that is significantly different from that used to prepare the government-wide financial statements.

In general, these financial statements have a short-term emphasis and, for the most part, measure and account for cash and other assets that can easily be converted to cash. For example, amounts reported on the balance sheet include items such as cash and receivables collectible within a fiscal year, but do not include capital assets such as land and buildings. Fund liabilities include amounts that are to be paid within a fiscal year. The difference between a fund's total assets and total liabilities is labeled as the fund balance, and generally indicates the amount that can be used to finance the next fiscal year's activities. Likewise, the statement of revenues, expenditures, and changes in fund balances for governmental funds reports only those revenues and expenditures that were collected in cash or paid with cash, respectively, during the current period or very shortly after the end of the fiscal year.

For the most part, the balances and activities accounted for in governmental funds are also reported in the governmental activities columns of the government-wide financial statements. However, because different accounting basis are used to prepare fund financial statements, there are often significant differences between the totals presented in these financial statements. For this reason, there is an analysis at the bottom of the balance sheet that reconciles the total fund balances to the amount of net assets presented in the governmental activities column on the statement of net assets. Also, on page 16, there is a reconciliation of the statement of revenues, expenditures, and changes in fund balance of governmental funds to the statement of activities.

The City presents in separate columns funds that are most significant to the City (major funds) and all other governmental funds are aggregated and reported in a single column (non-major funds). The City's governmental fund financial statements are presented on pages 14 and 15.

Proprietary Funds

Proprietary fund financial statements consist of a statement of net assets, the statement of revenues, expenses, and changes in net assets and statement of cash flows, which are prepared on the accrual basis of accounting. For financial reporting purposes, proprietary funds are grouped into Enterprise Funds.

The City uses Enterprise Funds to account for business-type activities that typically charge fees to customers for the use of specific goods or services. Balances and activities accounted for in the City's Enterprise Funds are also reported in the business-type activities columns of the government-wide financial statements and used the same basis of accounting as the government-wide statements.

The City presents in separate columns Enterprise Funds that are most significant to the City (major enterprise funds) and all other Enterprise Funds are aggregated and reported in a single column. A statement of cash flows is presented at the fund financial statement level for proprietary funds.

The City's proprietary fund financial statements are presented on pages 18 - 20.

Overview of the City's Financial Position and Operations

The City's overall financial position and operations for the past two fiscal years are summarized as follows based on the information included in the government-wide financial statements (see pages 12 and 13):

City of Fairburn Net Assets

	Governmen	tal A	ctivities	Business-type Activities			Total			
	 2011		2010	 2011	20	010 Restated		2011	20	010 Restated

Restricted Unrestricted	 639,394 415,456		613,627 (169,035)	 1,344,040 4,369,476		65,200 5,096,658		1,983,434 4,784,932		678,827 4,927,623
Total net assets	\$ 14,504,622	\$	14,487,751	\$ 23,043,971	\$	23,203,366	\$	37,548,593	\$	37,691,117

Financial Position

The total net assets of the City decreased (\$142,524) or 0.38%, from \$37,691,117 to \$37,548,593 as noted in the following table. Total current and other assets for the primary government increased by approximately \$16.8 million as a result of the City issuing bonds and having unspent bond proceeds in the amount of approximately \$15.6 million reported as cash and cash equivalents as of September 30, 2011.

Total long-term liabilities increased by approximately \$15.7 million as result of the City issuing bonds during the current fiscal year.

Governmental Activities

Net assets for governmental activities increased \$16,871. Governmental revenues increased \$1,364,613 or 18%. The most significant increase in governmental revenue was property taxes which increased \$1,206,642 or 42% over the prior fiscal year as a result of the increase in the millage rate from 5 mills to 7.5 mills. The City also received a donation of property along West Broad Street valued at \$280,000 which is reflected as a capital grant and contributions as noted in the above table.

Expenses for governmental activities decreased (\$811,423) or 7%, primarily as a result of austerity measures taken by management. General government activities decreased (\$258,939) or 13% as a result of austerity measures taken by management. Public safety expenses decreased (\$630,444) or 9% as a result of delays in filling open positions in the fire and police departments. Also contributing to the decrease is the transfer of all E-911 emergency activities to Fulton County, effective April of 2011. Interest on long term debt increased from \$25,411 to \$299,264 as a result of the issuance of \$10,415,000 of general obligation bonds.

As a result of improved operating results noted above, transfers from proprietary funds to governmental funds required to balance governmental fund balances decreased from \$3,689,629 in fiscal year 2010 to \$2,865,000 in fiscal year 2011, a reduction of \$824,629, or 22%.

Business-Type Activities

Net assets for business type activities decreased (\$159,395) from the prior fiscal year. The activities of each enterprise fund are discussed below.

Electric Fund Net income before transfers for the Electric Fund was \$1,001,884 compared to \$1,575,335 in the prior fiscal year, a decrease of \$573,451 or 36%. Operating revenues decreased (305,154) or 4% as a result of normal fluctuations in demand. Electricity costs increased \$290,404 or 6% as a result of environmental upgrade charges from the Municipal Electric Association of Georgia. Transfers to meet General Fund obligations for fiscal year 2011 were (\$1,650,000) compared to (\$2,056,803) in the prior fiscal year, a decrease of (\$406,803) or 20%.

<u>Water and Sewer Fund</u> Net income before transfers for the Water and Sewer Fund was \$662,902 compared to \$556,332 in the prior fiscal year, an increase of \$106,570 or 19%. Water revenues increased \$715,153 or 16% as a result of increased water rates. Water and sewer operating expenses increased \$107,606 or 3%, primarily as a result of increased water rates charged by the City of Atlanta. Transfers to meet General Fund obligations were (\$850,000) compared to (\$1,597,811) in fiscal year 2010, a decrease of (\$747,811) or 47%.

Educational Complex Fund Net losses for the Educational Complex were (\$97,217) in fiscal year 2011 compared to losses of (\$250,594) in fiscal year 2010. Interest expense decreased (\$114,295) as a result of the refinancing of revenue bonds on more favorable terms. Rental income increased from \$435,173 in fiscal year 2010 to \$488,679 in fiscal year 2011 as additional facilities were leased.

Stormwater Fund This Fund was created during fiscal year 2010 to properly segregate infrastructure utility charges in accordance with State statutes. Operating losses were (\$104,110) in fiscal year 2011 as compared to (\$100,525) in the prior fiscal year.

Sanitation Fund Net income before transfers for the Sanitation Fund was \$142,146 compared to \$116,779 in the prior fiscal year. Transfers to the General Fund in fiscal year 2011 were \$365,000 compared to \$35,015 in fiscal year 2010. Net assets of this fund decreased (\$222,854) primarily as a result of the increase in transfers in fiscal year 2011.

Financial Analysis of the City's Funds

As noted earlier, the City of Fairburn uses fund accounting to ensure and demonstrate compliance with financerelated legal requirements.

Governmental Fund Balance

The City's combined fund balances as of the end of the current fiscal year for governmental funds, presented on page 14, were \$10,948,572 compared to \$706,191 in the prior fiscal year. This increase is primarily due to the issuance of \$10,415,000 of general obligation bonds.

City of Fairburn Governmental Fund Balance

	 2011	2010	 \$ Change
General Fund	\$ 546,621	\$ 91,611	\$ 455,010
General Obligation Bond Capital Projects Fund	9,761,595	-	9,761,595

Total other financing sources (uses)		12,219,974		3,812,629		8,407,345	

Deficiency of revenues under expenditures prior to other financing sources (uses) in the Governmental Funds for the current fiscal year was (\$1,977,593) as compared to (\$3,295,386) in the prior fiscal year, an increase of \$1,317,793.

Overall governmental revenues increased \$1,051,192 or 14%. The largest increase was in property taxes which increased \$1,175,855 or 40% as a result of the increase in millage rates from 5 to 7.5.

Overall governmental expenditures decreased (\$266,601) or 2%. The largest decrease was in public safety expenditures which decreased (\$585,065) or 9% as a result of delays in filling open positions in the fire and police departments. General government expenditures decreased (\$269,266) or 14% as a result of austerity measures put in place by management. Capital outlays (related to culture and recreation) expenditures increased \$219,133 as a result of capital expenditures for upgrades to Duncan Park. During the current fiscal year, the City incurred bond issuance costs of \$409,485 in relation to the issuance of the Series 2011 General Obligation Bonds.

General Fund Budgetary Highlights

The final amended budgets passed by the City Council anticipated revenues and transfers from the Enterprise Funds being sufficient to meet operations of the General Fund. Actual results were \$454,057 better than budgeted.

A comparison of the final budgetary figures and the actual budgetary figures for revenues are located on page 17.

- General Fund revenues in total were (\$638,351) less than budgeted. Property taxes were (\$184,336) less than budgeted as certain property tax payers made payments after the availability period after fiscal year end. Franchise tax payments were (\$176,722) less than budgeted as the budgets did not reflect the impact of national and local economic conditions on certain franchise payers. Fines and forfeitures were (\$156,220) less than budgeted as a result of the inability to collect fines due to the current economic climate. Charges for services related to tipping fees for demolition waste were (\$237,978) less than budgeted as a result of the decline in local construction.
- The actual expenditures of \$9,662,704 were \$1,016,013 less than budgeted as management reduced expenditures and delayed filling open positions to meet decreased revenue projections.

Capital Asset and Debt Administration

Capital Assets

The City has invested \$50,860,253 in capital assets (net of depreciation). Capital assets held by the City at the end of the current and previous fiscal years are summarized as follows:

City of Fairburn, Captial Assets, net of Accumulated Depreciation

Capital assets have decreased as a result of depreciation charges which are greater than purchases of new assets. The detailed capital assets schedule is reported in Note 6 of the footnotes to the financial statements.

Long-term Debt

At the end of the current fiscal year, the City had long-term debt related to business-type activities of \$26,058,573 and \$10,721,030 of governmental activities. Bonds, notes, and capital leases outstanding as of the fiscal year ended September 30, 2011 are fully secured by the full faith and credit of the City. Business-type activities debt is secured by electric, water and sewer, and educational complex revenues while governmental debt is secured by general revenues.

During fiscal year 2011, the City issued General Obligation Bonds of \$10,415,000 to be used for park acquisition and upgrades, construction of an additional fire station and downtown redevelopment activities. In addition, the City, through its Downtown Development Authority, refinanced \$7,958,409 of the 2008 series Education complex bonds and acquired \$5,875,910 of additional financing to enlarge the facility.

The debt position of the City is summarized below and is more fully analyzed in Note 8 of the footnotes to the financial statements.

City of Fairburn Outstanding Long-Term Liabilities

Economic Factors and Next Fiscal Year's Budgets and Rates

The City of Fairburn, along with most other municipalities in South Fulton County, continues to experience reduced revenues as a result of the sluggish metro-Atlanta economy. As a result, service levels and revenue projections will be adjusted as economic conditions dictate. Property taxes for general operations are budgeted to increase from 7.5 mills to 8.1 mills. In addition, the City will levy an additional property tax of 1.83 mills for 2011 to cover the debt payments related to the 2011 general obligation bonds.

Electric rates are budgeted and approved by the Mayor and City Council to increase slightly in fiscal year 2012, with the power cost adjustment rising from 20 mills to 24.5 mills. Water and sewer rates are also budgeted and approved by the Mayor and City Council to increase slightly in fiscal year 2012 as new rate structures take effect on October 1, 2011.

Contacting the City's Financial Management

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City's Finance Department (770) 964-2244, City Hall, 56 Malone Street, Fairburn, Georgia 30213-1341.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2011

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$	10,242,381
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period - see footnote 2 for detail of amount.		(365,490)
The net effect of various miscellaneous transactions involving capital assets (i.e., disposals and donations) is to increase net assets.		
Disposal of capital assets	(1,106)	
Donated capital assets from third party	280,000	278,894
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		(73,519)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets - see footnote 2 for detail of amount.		(9,881,059)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		
Change in compensated absences	(12,444)	
Change in accrued interest payable	(165,646)	
Amortization of bond issuance costs	(6,851)	
Amortization of bond premium	605	(184,336)
Change in net assets - governmental activities	\$	16,871
The accompanying notes are an integral part of these financial statements.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Fairburn, Georgia (the "City") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

A. Reporting Entity

The City of Fairburn, Georgia was incorporated February 17, 1854 and adopted its City Charter on August 3, 1925 (Georgia Statutes 1925). The City operates under the Mayor and Council form of government and provides the following services as authorized by its charter: public safety (police and fire), street, sanitation, electric, water, and stormwater utilities, planning and zoning, and general administrative services.

The financial statements of the City have been prepared in conformity with the accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the City are described below.

As required by accounting principles generally accepted in the United States of America, the financial statements of the reporting entity include those of the City (the primary government) and its component unit. The component unit discussed below is included in the City's reporting entity because of the significance of its operational or financial relationship with the City. Blended component units, although also legally separate entities, are in substance, part of the City's operations, and data from these units are combined with the data of the City of Fairburn.

Based upon criteria set forth by Governmental Accounting Standards Board (GASB) 14 "The Financial Reporting Entity," the accompanying financial statements present the City and its component units, entities for which the City is considered to be financially accountable. The Development Authority (or Downtown Development Authority) of the City of Fairburn was created for the purpose of revitalizing and redeveloping the central business district of the City, developing and promoting for the public good and general welfare, trade, commerce, industry, and employment opportunities, and to promote the general welfare within the City of Fairburn. The Development Authority is composed of seven (7) members created and appointed by the City Council and Mayor. The Development Authority is reported in the City's financial statements as a blended component unit special revenue fund as it provides services exclusively to the City of Fairburn as a financing instrument. The blended component unit has a September 30th year-end. Financial information with regard to the Development Authority can be obtained directly from the City of Fairburn, City Hall, 56 Malone Street, Fairburn, Georgia 30213. Separate financial statements for the Development Authority are not prepared.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the activities of the primary government. (For the most part, the effect of interfund activity has been removed from the government-wide financial statements). Government-wide financial statements do not provide information by fund, but distinguish between the City's governmental activities and business-type activities. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of net assets includes non-current assets and non-current liabilities. In addition, the government-wide statement of activities reflects depreciation expense on the City's capital assets.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not considered program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Basis of Presentation

The government-wide financial statements are reported using the economic resource measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the fiscal year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, capital leases, and general obligation bonds are recorded only when payment is due.

Property taxes, sales taxes, franchise taxes, licenses and permits, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period, if the availability criteria are met. All other revenue items are considered to be measurable and available only when cash is received by the City.

In accordance with GASB Statement No. 33, "Accounting and Financial Reporting for Nonexchange Transactions," the corresponding assets (receivables) in non-exchange transactions are recognized in the period in which the underlying exchange occurs, when an enforceable legal claim has arisen, when all eligibility requirements have been met, or when resources are received, depending on the revenue source.

In accordance with GASB Statement No. 34, major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The City reports the following major governmental funds:

The **General Fund** is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The **General Obligation Bond Capital Projects Fund** accounts for the City's general obligation bond proceeds to be used for the acquisition and construction of major capital facilities.

Additionally, the City reports the following fund types within the nonmajor governmental funds:

The **special revenue funds** account for revenue sources that are legally restricted or committed to expenditures for specific purposes.

The **permanent fund** accounts for amounts received by the City which can only be used for a specific purpose. The principal of perpetual care cemetery funds are not available for expenditures based on legal or contractual requirements and must remain in trust and not be encroached upon. Only the income from such funds may be used for maintenance and upkeep of the Fairburn municipal cemetery.

C. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

The City reports the following major enterprise (or proprietary) funds:

The Electric Fund accounts for the activities of the City's electric distribution operations.

The **Water and Sewer Fund** accounts for the activities of the City's water and sewer operations offered to its residents and businesses.

The **Educational Complex Fund** accounts for the activities of the City's educational complex operations offered to residents and businesses.

The Stormwater Fund accounts for the activities of the City's storm water operations.

The City reports the following nonmajor proprietary funds:

The **Sanitation Fund** accounts for the activities of the City's sanitation operations.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges for goods and services provided. Operating expenses of the enterprise funds include the cost of these goods and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

D. Budgets and Budgetary Accounting

Annual appropriated budgets are adopted for all funds, except for the Cemetery Permanent Fund, which has its expenditures controlled by legal use restrictions imposed by a trust agreement. The budgets for the proprietary funds are for management control purposes and are not required to be reported. Budgets are prepared by the City Administrator prior to September 1 for the fiscal year to commence October 1. The City Administrator is authorized to transfer between line items within the budget without the City Council's approval and expenditures may not exceed the legally adopted budget without the City Council's approval. The level of control does not allow expenditures to legally exceed budgeted appropriations at the department level. Budgets are adopted on a modified accrual basis, which is consistent with generally accepted accounting principles for governmental funds. All appropriations lapse at fiscal year end. Encumbrance accounting - under which purchase orders, contracts, and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation - is not employed by the City.

E. Cash and Cash Equivalents

Cash equivalents are defined as short-term, highly liquid investments that are both readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Generally, only investments with original maturities of three months or less meet this definition.

For purposes of the statement of cash flows, all highly liquid investments with an original maturity of less than 90 days are considered to be cash equivalents. Investments are reported at fair value as determined by quoted market prices.

F. Deposits and Investments

Georgia statutes authorize the City to invest in the following: (1) obligations of Georgia or any other State; (2) obligations of the United States; (3) obligations fully insured or guaranteed by the United States government or one of its agencies; (4) obligations of any corporation of the United States government; (5) prime bankers' acceptances; (6) the Local Government Investment Pool of the State of Georgia ("Georgia Fund 1"); (7) repurchase agreements; and (8) obligations of any other political subdivisions of the State of Georgia. Any investment or deposit in excess of the Federal depository insured amounts must be collateralized at 110%. The Georgia Fund 1 and Georgia Extended Asset Statement Investment Pool (GEAP) are not registered with the Securities and Exchange Commission (SEC) but operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. As of September 30, 2011, the City did not have any investments in GEAP.

F. Deposits and Investments (Continued)

Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that do not have an established market are reported at estimated fair values.

G. Property Taxes Receivable

The tax digest for the calendar year is compiled by the Fulton County Tax Commissioner's Office and is presented to the City by the first of August. The City bills and collects its own property taxes. The digest is reviewed by the City and tax bills are mailed by October 31st of each year and due on or before December 31st. The City may place liens for any and all debts after the due date. Ad valorem property tax revenue is recorded when it becomes available. Available means then due, or past due and receivable within the current period, expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Such time thereafter shall not exceed 60 days. Delinquent property taxes for which the City has a property lien are shown as taxes receivable. Receivables are shown net of an allowance for uncollectible amounts when necessary.

H. Interfund Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance nonspendable account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

I. Inventory and Prepaid Items

Inventory (if any) is valued at cost, using the first-in, first-out method. The cost of governmental fund type inventory is recorded as an expenditure when consumed rather than when purchased. Prepaid items are accounted for using the consumption method. Payments made to vendors for services that will benefit periods beyond September 30, 2011, are recorded as prepaid items in both government-wide and fund financial statements.

J. Restricted Assets

Certain proceeds of revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the statement of net assets because their use is limited by applicable bond covenants.

K. Grants from Other Governments

Federal and State governmental units represent an important source of supplementary funding used to finance housing, business development employment, construction programs, capital asset additions, and other activities beneficial to the community. This funding, primarily in the form of grants, is recorded in both governmental and proprietary funds. Grant contributions in the proprietary funds, which are for the purpose of construction activities, or land easement or capital asset acquisitions, are recorded as capital contributions within the statement of revenues and expenses. For all funds, a grant receivable is recorded when the City has met all eligibility requirements.

L. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two (2) years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Infrastructure (e.g., roads, bridges, sidewalks, and similar items) prior to July 1, 2003 have not been reported.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Capital assets of the primary government are depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Distribution system	50
Infrastructure	30
Buildings and improvements	15-40
Vehicles	10-20
Machinery and equipment	3-10
Computer equipment	3-5

M. Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. The City permits an accumulation of a maximum of one hundred and twenty (120) days of sick leave. Sick leave is payable to those employees who have resigned from the City with a minimum of five (5) years service up to 25% of their accumulated sick leave. Vacation time is allowed to be carried over from the current calendar year up to a maximum of 240 hours without special approval from the City Administrator. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

N. Unearned Revenue/Deferred Revenue

Unearned/deferred revenues at the governmental fund level arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Unearned/deferred revenue also arise in both the governmental fund level and government-wide level when resources are received by the City before it has a legal claim to them, as when grant monies are received prior to meeting all eligibility requirements.

In subsequent periods, when both revenue recognition criteria are met, or when the City has a legal claim to the resources, the liability for unearned/deferred revenue is removed from the balance sheet and revenue is recognized.

O. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the term of the bonds using the effective interest method. Bonds payable are reported net of the applicable discount or premium. Issuance costs are reported as deferred charges.

Proprietary fund type loans payable are reported as liabilities at their outstanding value. Loan issuance costs are reported as deferred charges and amortized over the term of the loan using the effective interest method.

In the fund financial statements, governmental fund types report the face amount of debt issued and related premiums or discounts as other financing sources and bond issuance costs as expenditures.

P. Fund Equity and Net Assets

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net assets."

Fund Balance – Generally, fund balance represents the difference between the assets and liabilities under the current financial resources management focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purpose for which amounts in those funds can be spent.

Fund balances are classified as follows:

Nonspendable – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.

Restricted – Fund balances are reported as restricted when there are limitations imposed on their use either through enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors, laws or regulations of other governments.

Committed – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by a formal vote of the City Council. Only the City Council may modify or rescind the commitment.

Assigned – Fund balances are reported as assigned when amounts are constrained by the City's intent to be used for specific purposes, but are neither restricted nor committed. The City Council has expressly delegated to the City administrator the authority to assign funds for particular purposes.

Unassigned – Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. The City reports positive unassigned fund balance only in the General Fund. It is the City's intent to build and maintain an unassigned fund balance in the General Fund equal to between twenty and thirty percent (20-30%) of operating budget, or an amount equal to 3 to 4 months' operating expenditures.

P. Fund Equity and Net Assets (Continued)

Flow Assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City's policy to use fund balance in the following order: (1) Committed, (2) Assigned, (3) Unassigned.

Net Assets – Net assets represent the difference between assets and liabilities in reporting which utilizes the economic resources measurement focus. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the City has spent) for the acquisition, construction or improvement of those assets. Net assets are reported as restricted using the same definition as used for restricted fund balance as described in the previous section. All other net assets are reported as unrestricted. The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available. Restrictions on the government-wide statement of net assets represent amounts segregated to meet debt covenants and State laws.

Q. Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenditures/expenses during the period. Actual results could differ from those estimates.

R. Interfund Transactions

Interfund services provided and used in the fund financial statements are accounted for as revenue, expenditures, or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as a reduction of expenditures/expenses in the fund that is reimbursed.

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS

A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Assets

The governmental fund balance sheet includes a reconciliation between *fund balance – total governmental funds* and *net assets – governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains that "long-term liabilities are not due and payable in the current period and therefore are not reported in the funds." The details of this \$10,927,215 difference are as follows:

Bonds payable	\$	(10,415,000)
Capital leases payable		(306,030)
Compensated absences		(407,544)
Accrued interest payable		(165,646)
Unamortized premium on bonds		(35,629)
Bond issuance cost		402,634
Net adjustment to reduce <i>fund balance - total governmental</i>	\$	(10,927,215)
funds to arrive at net assets - governmental activities	φ	(10,927,213)

B. Explanation of Certain Differences between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period". The details of this \$365,490 difference are as follows:

Capital outlay	\$ 494,969
Depreciation expense	(860,459)
Net adjustment to decrease net changes in fund balances - total	
governmental funds to arrive at changes in net assets of	
governmental activities	\$ (365,490)

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS (CONTINUED)

B. Explanation of Certain Differences between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities (Continued)

Another element of that reconciliation explains that "The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets." The details of this \$9,881,059 difference are as follows:

Issuance of general obligation bonds	\$ (10,415,000)
plus unamortized bond premium	(36,234)
Principal payment on capital lease	160,690
Bond issuance costs (unamortized)	 409,485
Net adjustment to decrease net changes in fund balances - total	
governmental funds to arrive at changes in net assets of	
governmental activities	\$ <u>(9,881,059)</u>

NOTE 3. LEGAL COMPLIANCE - BUDGETS

Prior to September 1 of each fiscal year, all departments of the City submit requests for appropriations to the City Administrator so that a budget may be prepared. The budget is prepared by fund, function and activity, and includes information of the prior fiscal year, current fiscal year estimates, and requested appropriations for the next fiscal year.

Before September 30, the proposed budget is presented to the City Council for review. City Council holds public hearings and may add to, subtract from or change appropriations. The budget is then approved by an affirmative vote of a majority of the City's council.

Expenditures may not legally exceed budgeted appropriations at the department level (e.g. administration). For the fiscal year ended September 30, 2011, the following departments, and funds, had excesses of actual expenditures over appropriations:

Confiscated Asset Fund department:	
Public safety	\$ 6,812
Hotel/Motel Fund departments:	
Transfers out	90,000
General Fund departments:	
Police (public safety)	47,914
Recreation (culture and recreation)	50,465
Interest (debt service)	142
Transfers out	9,083

These over expenditures were funded by greater than anticipated revenues and by available fund balance.

NOTES TO FINANCIAL STATEMENTS

NOTE 4. DEPOSITS AND INVESTMENTS

As of September 30, 2011, the City had the following investments:

Investment	Maturities/Weighted Average Maturi	ty	Fair Value
Certificates of deposit Municipal Competitive Trust - intermediate Municipal Competitive Trust - short-term Total	January 5, 2012 - June 17, 2012 1.86 0.29		\$ 175,895 129,340 786,628 \$ 1,091,863
Below is a reconciliation of cash and cash Net Assets.	equivalents and investments to the Stat	emer	nt of
As reported in the Statement of Net Primary government Cash and cash equivalents Investments Cash with fiscal agent Investments with fiscal agent	: Assets \$ 		19,418,210 1,023,115 720,000 <u>68,748</u> 21,230.073

Interest rate risk. The City has a no formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit risk. State statutes authorize the City to invest in obligations of the State of Georgia or other States; obligations issued by the U.S. government; obligations fully insured or guaranteed by the U.S. government or by a government agency of the United States; obligations of any corporation of the U.S. government; prime bankers' acceptances; the local government investment pool established by State law; repurchase agreements; and obligations of other political subdivisions of the State of Georgia.

The local government investment pool, "Georgia Fund 1," created by OCGA 36-83-8, is a stable net asset value investment pool, which follows Standard and Poor's criteria for AAAm rated money market funds and is regulated by the Office of the State Treasurer. The Georgia Fund 1 operates in a manner consistent with Rule 2a-7 of the Investment Company Act of 1940 and is considered to be a 2a-7 like pool. The pool is not registered with the SEC as an investment company. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1 per share value). Net asset value is calculated weekly to ensure stability.

NOTE 4. DEPOSITS AND INVESTMENTS (CONTINUED)

The pool distributes earnings (net of management fees) on a monthly basis and determines participant's shares sold and redeemed based on \$1 per share. The regulatory oversight agency for Georgia Fund 1 is the Office of the State Treasurer. As of September 30, 2011, the City's investment in Georgia Fund 1 was rated AAAm by Standard & Poor's and has a weighted average to maturity of 58 days. Funds included in this Pool are not required to be collateralized. The City has reported the Georgia Fund 1 as cash equivalents as noted in the previous table.

The credit rating for the Municipal Competitive Trust ("MCT") funds for both intermediate and short-term investment securities is AAA.

Custodial credit risk – deposits. Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statues, and City policy, require all deposits and investments (other than Federal or State government instruments) to be collateralized at 110% by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities. As of September 30, 2011, the City had no bank balances that were exposed to custodial credit risk.

NOTE 5. RECEIVABLES

Property taxes are levied on property values assessed as of January 1. The tax bills are levied on October 1 and are mailed by October 31 to the taxpayers. The billings are considered due upon receipt by the taxpayer; however, the actual due date is December 31. After these dates, the bill becomes delinquent and penalties and interest may be assessed by the City. Property taxes are recorded as receivables and deferred revenues when levied. Revenues are recognized when available (received within 60 days of fiscal year-end).

Receivables at September 30, 2011, for the City's individual major funds and nonmajor funds in the aggregate, including the applicable allowances for uncollectible accounts are as follows:

Electric	296,408
Education complex	241,828
Stormwater	 258,392
Total depreciation expense - business-type activities	\$ 1,223,502

NOTE 7. OPERATING LEASES

The City is the lessor of space at the Educational Complex. Each of the lease agreements have terms extending beyond the end of the next fiscal year. As of the fiscal year then ended September 30, 2011, the City received \$488,679 in lease revenue derived from current lease agreements with third parties.

Lease revenues from these tenants in future fiscal years are as follows:

Fiscal Year Ending	 Total Revenues
2012	\$ 489,298
2013	489,298
2014	489,298
2015	478,298
2016	390,631
2017-2018	474,596
Total Future Lease Revenues	\$ 2,811,419

NOTE 8. LONG-TERM DEBT

Primary Government

Long-term liability activity for the fiscal year ended September 30, 2011, was as follows:

	Beginning Balance		 Additions Reductions			Ending Balance			Due Within One Fiscal Year	
Governmental activities:										
Series 2011 General Obligation Bonds	\$	-	\$ 10,415,000	\$	-	\$	10,415,000	\$	-

For governmental funds, compensated absences and capital leases are liquidated by the General Fund. For business-type activities, compensated absences are liquidated by the Water and Sewer Fund and the Electric Fund while capital leases are liquidated by the Electric Fund.

General Obligation Bonds – Governmental activities. On March 9, 2011, the City of Fairburn issued \$10,415,000 in General Obligation Bonds, Series 2011 with interest rates ranging from 3% to 5.75%. The purpose of which is to pay the cost of (a) acquiring, constructing and furnishing a fire station, certain City recreation facilities and downtown renewal projects, (b) constructing and installing certain road rebuilding projects, and (c) other projects of the City as may be determined in accordance with O.C.G.A. 36-824.2 (collectively, the "Projects"). Interest on the Bonds is payable semiannually on June 1 and December 1 of each fiscal year, commencing on June 1, 2011. These bonds mature on December 1, 2031.

NOTES TO FINANCIAL STATEMENTS

NOTE 8. LONG-TERM DEBT (CONTINUED)

The general obligation bonds currently outstanding mature as follows:

	 Principal	 Interest	 Total
Fiscal Year Ending September 30,			
2012	\$ -	\$ 496,938	\$ 496,938
2013	395,000	491,013	886,013
2014	400,000	479,087	879,087
2015	405,000	467,012	872,012
2016	410,000	454,788	864,788
2017-2021	2,215,000	2,050,550	4,265,550
2022-2026	2,635,000	1,514,200	4,149,200
2027-2031	3,220,000	690,000	3,910,000
2032	 735,000	 21,131	 756,131
Total	\$ 10,415,000	\$ 6,664,719	\$ 17.079.719

Capital Leases. The City has entered into lease agreements as lessee for financing the acquisition of various public safety and public works vehicles. The lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present values of the future minimum lease payments as of the date of their inceptions. As of September 30, 2011, the City had vehicles with a net book value of \$513,275 and \$28,648, respectively, under capital leases as reported in its governmental activities and business-type activities.

The City's total capital lease debt service requirements to maturity are as follows:

		vernmental Activities
Fiscal Year Ending September 30,		
2012	\$	143,624

riceant value of ratare minimum reade paymente	÷	

NOTE 8. LONG-TERM DEBT (CONTINUED)

Revenue Refunding Bonds – Business-type activities. The City issued \$13,145,000 of Series 2006 bonds bearing an interest rate of 4.101% payable each April 1 and October 1 beginning 2007 through until 2020. The proceeds from the bonds were used to refund Series 2000 Combined Utility Refunding Revenue Bonds. The proceeds of the refunded Series 2000 Bonds were used to acquire the contractual right to use Camp Creek Water Reclamation Facility from Fulton County and to also make infrastructure improvements to the City's existing sewerage collection system which is held as collateral.

On September 20, 2011, the Downtown Development Authority, as a blended component unit of the City of Fairburn, issued \$15,280,000 of Series 2011 Educational Revenue Bonds bearing interest rates ranging from 2% to 4.75% payable July 1 and January 1 beginning 2012 with the bonds maturing on July 1, 2033. The 2011 bonds were issued for the purpose of refunding the Series 2008 Educational Bonds and financing the additional acquisition, construction, and installation on the education campus with parking and related facility. The refunding portion of this transaction resulted in a negative debt service savings of \$1,986,680 and the negative net present value cash-flow savings was determined to be \$839,726.

Defeased bonds occur when refunded bonds for which the payment of principal and interest has been assured through the structuring of a portfolio of government securities, the principal and interest on which will be sufficient to pay debt service on the refunded outstanding bonds. When a bond is defeased, the claim on the revenues of the issuer is usually eliminated and the liability, nor the assets set aside in escrow to pay the liability, are no longer reported on the statement of net assets. The balance of the defeased Series 2008 bonds as of September 30, 2011 is \$7,958,409.

The Development Authority is responsible for promoting industrial and commercial development within the City of Fairburn. However, the City of Fairburn does provide financial support each year and has contractually obligated itself to use its taxing powers to guarantee the repayment of principal and interest on the Series 2011 Educational Complex revenue bonds issued by the Downtown Development Authority.

NOTE 8. LONG-TERM DEBT (CONTINUED)

Revenue bonds (Series 2006 and 2011) currently outstanding mature as follows:

	 Principal	Interest			Total
Fiscal Year Ending September 30,					
2012	\$ 720,000	\$	961,835	\$	1,681,835
2013	805,000		1,035,004		1,840,004
2014	1,260,000		999,940		2,259,940
2015	1,355,000		954,188		2,309,188
2016	1,465,000		904,756		2,369,756
2017-2021	8,810,000		3,594,040		12,404,040
2022-2026	3,680,000		2,379,388		6,059,388
2027-2031	5,275,000		1,421,200		6,696,200
2032-2033	 2,665,000		191,900		2,856,900
Total	\$ 26,035,000	\$	12,442,251	\$	38,477,251

Other Long-Term Debt:

Business-type activities – Notes Payable. The City entered into a loan agreement with the Georgia Environmental Finance Authority ("GEFA") for the purpose of constructing and acquiring building and equipment. This GEFA note is recorded in the City's Water & Sewer Fund. Principal and interest payments are due quarterly with the final payment being on June 1, 2012. The outstanding balance of this GEFA note payable at September 30, 2011 is \$17,361.

The following is a schedule of future principal and interest payments due on the note payable:

	Principal Interest				Total		
Fiscal Year Ending September 30,							
2012	\$	17,361	\$	462	\$	17,823	
Total	\$	17,361	\$	462	\$	17,823	

NOTE 9. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

The composition of interfund balances as of September 30, 2011, is as follows:

Due to / from other funds:

Receivable Fund	Payable Fund	 Amount				
General Fund	Stormwater Fund	\$ 196,244				
Stormwater Fund	Water and Sewer Fund	307,774				
日ectric Fund	Water and Sewer Fund	160,000				
		\$ 664,018				

All interfund balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

NOTE 9. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS (CONTINUED)

Interfund transfers:

Transfers In	Transfers Out	Amount			
General Fund	Water & Sewer Fund	\$	850,000		
General Fund	Electric Fund		1,650,000		
General Fund	Nonmajor enterprise fund		365,000		
Education Complex Fund	General Fund		1,100,000		
General Fund	Nonmajor governmental funds		90,000		
Nonmajor governmental funds	General Fund		277,866		
		\$	4,332,866		

Transfers are used to (1) move revenues from the fund that statute or budget requires collecting them to the fund that statute or budget requires to expend them, (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations, and (3) pay the General Fund a franchise fee amounting to 5% of each Enterprise Funds' annual operating revenue.

NOTE 10. PENSION PLANS

Plan Description

The City, as authorized by the City Council, has established a defined benefit pension plan (The City of Fairburn Retirement Plan) covering all full-time employees. The City's pension plan is affiliated with the Georgia Municipal Employee Benefit System (GMEBS), an agent multipleemployer pension plan administered by the Georgia Municipal Association. Contributions made by the City are commingled with contributions made by other members of GMEBS for investment purposes. The City does not own any securities on its own. Investment income from the securities is allocated on a pro rata basis. The Georgia Municipal Association issues a publicly available financial report that includes financial statements and required supplementary information for GMEBS. That report may be obtained by writing to Georgia Municipal Association, Risk Management and Employee Benefit Services, 201 Pryor Street, NW, Atlanta, Georgia 30303 or by calling (404) 688-0472.

NOTE 10. PENSION PLANS (CONTINUED)

Plan Description (Continued)

As provided by State law, benefit provisions for participants in GMEBS are established, and may be amended by the respective employers. As authorized by the City Council, the Plan provides pension benefits and death and disability benefits for plan members and beneficiaries. All full-time employees and City officials are eligible to participate in the Plan. Benefits vest after five years of service. City employees may retire on reaching the age of 60 or 65, (55 for police or firefighters). Early retirement is possible on reaching the age of 50 or 55, depending on the classification of the employee. Benefits are calculated at 1.25% to 2.0% of the average monthly earnings for the period of the five highest years prior to retirement, payable monthly for life. City officials receive a lifetime benefit at age 65 of \$25 per month for each year of service to the City.

At January 1, 2011, the date of the most recent actuarial valuation, there were 215 participants consisting of the following:

Retirees and beneficiaries currently receiving benefits	32
Terminated vested participants not yet receiving benefits	39
Active employees - vested	58
Active employees - nonvested	86
Total	215

Funding Policy

The Plan is subject to minimum funding standards of the Georgia Public Retirement Systems Standards law. The Board of Trustees of GMEBS has adopted a recommended actuarial funding policy for the Plan which meets State minimum requirements and will accumulate sufficient funds to provide the benefits under the Plan. The funding policy for the Plan is to contribute an amount equal to the recommended contribution described below. The actuarially determined contribution rates based on actuarial valuations done on January 1, 2011 and January 1, 2010 were respectively, 9.75% and 10.10% of covered payroll. The actuarial valuation performed as of January 1, 2011 was prepared for the City's fiscal year beginning October 1, 2011 (fiscal year 2012).

NOTE 10. PENSION PLANS (CONTINUED)

Funding Policy (Continued)

For fiscal year ended September 30, 2011, the City's recommended contribution was \$604,270. Actual contributions totaled \$604,270. The recommended contribution was determined as part of the January 1, 2010 actuarial valuation using the projected unit credit actuarial cost method. Actuarial assumptions include an 7.75% rate of return on investments and projected salary increases of 3.5% based on age and years of service. Both rates included an inflation component of 3.5%. The period, and related method, for amortizing the initial unfunded actuarial accrued liability is over 30 years from 1982 and current changes in the unfunded actuarial accrued liability over 15 years for actuarial gains and losses, 20 years for Plan provisions and 30 years for actuarial assumptions and cost methods as a level dollar amount. These amortization periods are closed for this plan year. The actuarial value of the Plan assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a ten year period.

The following is the most recent schedule of funding progress:

				(b-a) Unfunded			[(b-a))/ c]
	(a)		(b)	Actuarial			UAAL	as a
Actuarial	Actuarial		Actuarial	Accrued	(a/ b)	(c)	Percen	ntage
Valuation	Value of		Accrued	Liability	Funded	Covered	of Cov	vere d
Date	 Assets	Li	ability (AAL)	 (UAAL)	Ratio	Payroll	Payı	roll
1/1/2011	\$ 7,830,403	\$	8,300,993	\$ 470,590	94.33 %	\$ 5,661,124	8.31	%

The required schedule of funding progress immediately following the notes to the financial statements presents multi-year trend information about whether the actuarial value of Plan net assets is increasing or decreasing over time relative to the actuarial accrued liability.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations for fiscal year 2011 are based on the substantive plan in effect as of January 1, 2010.

2009	303,004	303,004	100.0		-

NOTE 11. DEFERRED COMPENSATION PLAN

The City of Fairburn, Georgia offers its employees an Internal Revenue Code Section 457 Plan (the "Plan") which is a deferred compensation plan that qualifies as a defined contribution pension plan. The Plan is administered by a third party administrator, ICMA. The City has no fiduciary relationship with the trust. Accordingly, the Plan assets are not reported in the City's financial statements. Plan provisions and contribution requirements are established and may be amended by the City's Mayor and Council. At September 30, 2011, there were 67 plan members, in the respective plans.

Employees are not required to contribute to the Plan. Employees may contribute a portion of their gross salary, not to exceed the IRS guidelines, into the Plan. The City contributions to the Plan are a match of the employee contributions made. The Plan allows employees to increase, decrease, stop, and restart deferrals as often as they wish without penalties or fees. Total employee contributions for the fiscal year ended September 30, 2011 were \$224,345 while total employer contributions for the same fiscal year were \$219,076.

NOTE 12. JOINT VENTURE

Under Georgia law, the City, in conjunction with other cities and counties in the Atlanta, Georgia area, is a member of the Atlanta Regional Commission (ARC). Dues to the ARC are assessed at the County level and are, accordingly, paid on the City's behalf by Fulton County. Membership in the ARC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of the ARC in Georgia. The ARC Board membership includes the chief elected official of each county and various municipalities of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of the ARC. Separate financial statements may be obtained from ARC, 40 Courtland Street, NE, Atlanta, Georgia 30303.

NOTE 13. RELATED ORGANIZATIONS

The City's governing body is responsible for appointing a majority of the board members of the City of Fairburn Housing Authority. However, the City has no further accountability for this organization.

NOTE 14. RISK MANAGEMENT

The City is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City has joined together with other municipalities in the State as part of the Georgia Interlocal Risk Management Agency Property and Liability Insurance Fund and the Georgia Municipal Association Group Self-Insurance Workers' Compensation Fund, public entity risk pools currently operating as common risk management and insurance programs for member local governments.

As part of these risk pools, the City is obligated to pay all contributions and assessments as prescribed by the pools, to cooperate with the pool's agents and attorneys, to follow loss reduction procedures established by the funds, and to report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in the funds being required to pay any claim of loss. The City is also to allow the pool's agents and attorneys to represent the City in investigation, settlement discussions and all levels of litigation arising out of any claim made against the City within the scope of loss protection furnished by the funds.

The funds are to defend and protect the members of the funds against liability or loss as prescribed in the member government contract and in accordance with the workers' compensation law of Georgia. The funds are to pay all cost taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense.

Settled claims have not exceeded the coverage in the past three fiscal years.

The City carries commercial insurance for other risks of losses. For insured programs, there have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage in the past three fiscal years.

NOTE 15. COMMITMENTS AND CONTINGENCIES

Litigation:

The City is a defendant in certain legal actions in the nature of claims for alleged damages to persons and property and other similar types of actions rising in the course of City operations. Liability, if any, which might result from these proceedings, would not, in the opinion of management and legal counsel, have a material adverse effect on the financial position of the City.

Grant Contingencies:

The City has received Federal and State grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to the disallowance of certain expenditures previously reimbursed by those agencies. Based upon prior experience, management of the City believes such disallowances, if any, will not be significant.

Agreements with the Municipal Electric Authority of Georgia:

The Municipal Electric Authority of Georgia (MEAG) is a public corporation and an instrumentality of the State of Georgia created to supply electricity to local government electric distribution systems. As provided by State law, MEAG establishes rates and charges so as to produce revenues sufficient to cover its costs, including debt service, but it may not operate any of its projects for profit, unless any such profits insure to the benefit of the public.

As of September 30, 2011, the City is an electric utility participant in MEAG and obligated to purchase, all of its bulk power supply requirements from MEAG for a period not to exceed 50 years. The City has agreed to purchase all of its future power and energy requirements in excess of that received by the City through the Southeastern Power Administration at prices intended to cover the operating costs of the systems and to retire any debt incurred by the MEAG. In the event that revenues are insufficient to cover all costs and retire the outstanding debt, each participating City has guaranteed a portion of the unpaid debt based on their individual entitlement shares of the output and services of generating units acquired or constructed by MEAG. In addition, in the event of discontinued service to a participant in default, the City would be obligated to purchase additional power subject to contractual limitations. Payments to MEAG are made monthly based on KWH usage. The total payments under these contracts amounted to \$4,990,912 during fiscal year 2011.

At September 30, 2011, the outstanding debt of MEAG was approximately \$5.84 billion. The City's guarantee varies by individual projects undertaken by MEAG and totals approximately \$49.9 million at September 30, 2011.

NOTE 15. COMMITMENTS AND CONTINGENCIES (CONTINUED)

Agreements with the Municipal Electric Authority of Georgia (Continued)

During fiscal year 2009, MEAG and MEAG's bond holders authorized the usage of Municipal Competitive Trust ("MCT") funds. The original intended use of the MCT funds were to reduce MEAG's costs and thus charge individual participants, such as the City of Fairburn, less in power on a monthly basis. The MCT funds were only to be used in response to remedy potential deregulation in the State of Georgia. Since deregulation has not occurred in the State of Georgia, MEAG and MEAG's bond holders authorized the usage of the MCT funds as if deregulation had actually occurred. As a result, the City will receive a credit reduction in its monthly purchased power invoice; effectively reducing the City's cost. The projected benefits of this reduction over the next seven (7) years as of September 30, 2011 are \$2,479,460.

NOTE 16. HOTEL/MOTEL LODGING TAX

The City imposed a 3% tax on gross hotel occupancy revenues for the purpose of promoting tourism, conventions, and trade shows. For the fiscal year ended September 30, 2011, \$118,499 of hotel/motel tax was collected and \$90,000 was expended during the current fiscal year-end (as transfers to the General Fund for reimbursement of allowable expenditures).

NOTE 17. JOINTLY GOVERNED ORGANIZATION

On March 13, 2001, the City of Fairburn, the City of Union City, and the City of Palmetto created by joint resolutions pursuant to the authority of the General Assembly of the State of Georgia, the South Fulton Municipal Regional Water and Sewer Authority (the "Water and Sewer Authority"). The Water and Sewer Authority was created to provide alternative water and sewer resources for the Cities of Fairburn, Union City, and Palmetto. The Water and Sewer Authority is governed by a board of seven (7) directors, three of whom are the chief elected official of each member city, three (3) of whom are appointed one (1) each by each of the member cities, and one (1) director being appointed by members of the local delegation of the Georgia General Assembly who represent all, or any part of, a member city. The Water and Sewer Authority issues revenue bonds to finance the construction of reservoir. Once completed, the member Cities will purchase water from the Water and Sewer Authority.

NOTE 17. JOINTLY GOVERNED ORGANIZATION (CONTINUED)

The City does not provide financial support to the Water and Sewer Authority, but has contractually obligated itself to use its full taxing power to guarantee the repayment of approximately 34.72% of the principal and interest on the Water and Sewer Authority's Series 2007 Variable Rate Revenue Bonds if the Water and Sewer Authority's resources can not cover the debt service. During the fiscal year ended September 30, 2011, the City agreed to pay the Water and Sewer Authority \$735,460 (reported as interest expense) for the City's proportionate share of the principal and interest on the Water and Sewer Authority's bonds from revenues of the City's Water and Sewer Fund. As of December 31, 2010 (from the most recent available audited financial statements), the Water and Sewer Authority's debt service requirements on the Series 2007 Variable Rate Revenue Bonds were as follows using the synthetic interest rate of 3.835%:

	Principal	 Interest	Total
Fiscal Year Ending December 31,			
2012	\$ 480,000	\$ 1,524,604	\$ 2,004,604
2013	585,000	1,506,196	2,091,196
2014	615,000	1,483,762	2,098,762
2015	840,000	1,460,176	2,300,176
2016	890,000	1,427,962	2,317,962
2017-2021	6,880,000	6,496,682	13,376,682
2022-2026	9,705,000	4,946,958	14,651,958
2027-2031	13,290,000	2,835,216	16,125,216
2032-2033	 6,845,000	 373,529	 7,218,529
Total	\$ 40,130,000	\$ 22,055,085	\$ 62,185,085

Separate financial statements for the Water and Sewer Authority can be obtained at the following address: South Fulton Municipal Regional Water and Sewer Authority, P.O. Box 855, Fairburn, Georgia 30213.

NOTE 18. PRIOR PERIOD ADJUSTMENTS

Water and Sewer Fund: The City has determined that a restatement of beginning net assets of the Water and Sewer Fund is necessary to report amounts paid in the current fiscal year for services rendered but should have been recorded as a liability at September 30, 2010. The restatement is described below.

Net Assets September 30, 2010, as previously reported	\$ 7,231,743
Adjustment for accrued liabilities for proper recording	
in the correct period.	 (340,751)
Net Assets September 30, 2010, as restated	\$ 6,890,992

NOTES TO FINANCIAL STATEMENTS

NOTE 18. PRIOR PERIOD ADJUSTMENTS (CONTINUED)

Business-type Activities: As a result of the restatement above pertaining to the Water and Sewer Fund, the affect of this adjustment on beginning net assets of business-type activities as of September 30, 2011 is summarized below

Net Assets September 30, 2010, as previously reported	\$ 23,544,117
Adjustment for accrued liabilities for proper recording	
in the correct period.	(340,751)
Net Assets September 30, 2010, as restated	\$ 23,203,366

NOTE 19. SUBSEQUENT EVENT

During October 2011, the City of Fairburn purchased Duncan Park. The Park was purchased for a sum of \$2.1 million out of the General Obligation Bonds Capital Project Fund.

COMBINING AND INDIVIDUAL FUND STATEMENTS AND SCHEDULES

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt services and capital projects

- <u>Confiscated Assets Fund</u> To account for the City's share of excess funds received from confiscated capital and equipment. These monies must be used for police related expenditures and are restricted by Federal law.
- **E-911 Fund** To account for the collection of surcharge fees and the operation of the Emergency 911 system within the City. These funds are restricted by State law. E-911 operations and collection of all fees have been transferred to Fulton County as the City has decided to cease all E-911 operations during fiscal year 2011.

Hotel/Motel Tax Fund – To account for the 3% lodging tax levied in the City. Funds are restricted by State law.

PERMANENT FUND

<u>Cemetery Fund</u> – To account for monies received by the City which can only be used for a specific purpose. The principal of perpetual care cemetery funds are not available for expenditures based on legal or contractual requirements and must remain in trust and not be encroached upon (reported as nonspendable). Only the income from such funds may be used for maintenance and upkeep of the Fairburn municipal cemetery.

(1) The allocation of charges for services to the various functions was changed in 2006 and again in 2008 to more accurately reflect the nature of the City's activities.

During 2007 and 2008, the City eliminated the Cable TV and telecom services, respectively.
 During 2010, the City has created the Stormwater Enterprise Fund which was previously recorded in the Water & Sewer Fund

Source: City of Fairburn Finance Department

(1) Property values increased from 2006 to 2007 due to annexation activities and reassessment of property values by Fulton County

(2) Personal property values increased from 2007 to 2008 due to annexation activities which included several large industrial companies.(3) Assessed values have dropped from 2009 to 2010 due to the decline in the value of residential real properties.

Source: Assessed value data used to estimate applicable percentages provided by the various Tax Assessors and the Georgia Department of Revenue Property Tax Division.

debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a Fairburn, Georgia. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule resident, and therefore responsible for repaying the debt, of each overlapping government.

(1) The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the County's taxable assessed value that is within the City's boundaries and dividing it by the County's total taxable assessed value.
