Use Extra Caution - School's in Session

As summer draws to a close, back-to-school season is in full effect. Remember to safely share the roads with school buses, pedestrians and bicyclists, and provide children with the necessary knowledge to stay safe at school.

School Starting Dates

Arlington Christian School - August 10
Landmark Christian School - August 8
Fulton County Schools - August 8

Fairburn's Farmers Market

Every Friday thru August 26th from 4:00 pm – 7:00pm at the Stage and Courtyard, join us as we celebrate local vendors that provide fresh produce.

There will be:

- Locally grown fruits and vegetables
- Artisan baked goods
- Fresh eggs
- Hand made crafts
- Cooking demonstrations and live music

New Utility After-Hours Call Support

Fairburn Utilities has contracted with Interactive Utility Communications to provide after-hours call support. Now, if you should experience a problem with you electric or water service, no matter the time of day, simply call Customer Service at 770-969-3481. Operators are available 24-hours a day to take your call. They will ask a few questions to determine whether the problem is a customer problem, like a tripped circuit breaker, or an issue with the City's distribution systems. They will then dispatch repair crews as appropriate to resolve the issue as quickly as possible.

The City of Fairburn Mayor and Council has *not* authorized any changes to payment due dates or service cut-offs regarding utility billing. The Utility Department and Council are working together with local businesses and citizens to update the policies and procedures manual. Steps are being taken to assist citizens to continue to benefit from our city services.

Fairburn in the News!

ATTENTION!

Fats, Oils and Grease (F.O.G.) are Threatening YOUR Plumbing

Fats, Oils and Grease is the number one cause of sewer system blockages in the Metro Atlanta area. F.O.G. sticks to the walls of your plumbing and the sewer system and can build up over time. Eventually, it can completely block your plumbing or the sewer system.

How does F.O.G. affect YOU?

Blockages in your plumbing or the sewer system can result in sewer overflows. F.O.G. related overflows can result in property damage, environmental damage and civil penalties and fines. Residents may be held liable for all damages and clean-up costs for a resident-caused sewer back-up.

What can YOU do to help?

POUR

Allow F.O.G. to cool. Pour any liquids into a sealable, disposable container and place in trash.

SCRAPE

Use a spatula or a similar utensil to scrape any solid F.O.G. and food particles into the trash.

DRY WIPE

Use a paper towel to dry wipe any remaining F.O.G. residue into the trash. Place used paper towels in trash.

USE A SINK STRAINER

Use a sink strainer to catch any food particles that may be left on dishware and place in trash.
