We are delighted to share the exciting news that the City of Fairburn's Power Division has been honored with the prestigious Diamond Level Jeff Cook Safety Award from ECG! This accolade is a testament to their unwavering commitment to safety and excellence in every facet of their work. It recognizes the persistent efforts and dedication of our team, who prioritize the well-being and security of our community above all else. Their hard work and vigilance have not gone unnoticed, and this award serves as a fitting tribute to their continuous pursuit of creating a safe environment for everyone.

Congratulations to the Fairburn Police Department for receiving a grant exceeding \$40,000 from the Governor's Office of Highway Safety (GOHS)! This funding will be available until September 2025 and contributes to GOHS's statewide initiative aimed at reducing traffic fatalities while enhancing local law enforcement's effectiveness. The grant will facilitate new laptops, quicker response times, improvements in traffic safety, and ultimately provide greater assistance to the community!

The City of Fairburn Utilities is launching a Water Meter Change-Out Program to replace 1,250 outdated meters for better accuracy and service. Aqua Meter Consultants will perform the work.

- Expect possible temporary service disruptions.
- Meters are outside, so you don't need to be home.
- Contractors will have ID and marked vehicles.
- Technicians won't enter your home.

You might get a courtesy knock when they arrive.

As summer approaches, we want to ensure that learning for our students continues. The City of Fairburn has three little libraries available for our local scholars to nurture their love for reading. These libraries operate on a "take a book, leave a book" basis and are completely free of charge.
