

If being in the 9th largest MSA in the country, near the world's busiest airport; having excellent access to major interstate and state highways; living in a community with a low crime rate; residential neighborhoods with historic homes and new development; and having access to the resources that can help you grow and expand are important to your business, then the City of Fairburn is your ideal location.

Situated in south Fulton County, 25 minutes from downtown Atlanta and 10 minutes from Hartsfield-Jackson International Airport, Fairburn's strategic location in the Atlanta region has made it the choice of small and large companies alike. Our downtown suggests the City's place in history as a classic, southern railroad community (listed on the National Register of Historic Places) and the hub of Fairburn's business commerce. And while the commercial core along US 29 (West Broad St.) signifies the City's past, a new version of Fairburn is emerging as reflected in new industrial and residential development together with the City's strategic investment in public infrastructure (\$20 million in the past five years) including, a new downtown public plaza, improvements to Duncan Park (the City's recreation and open space center piece), roadway improvements near industrial sites, and right-of-way and streetscape improvements in downtown.
