FAIRBURN: SITUATED TO SUCCEED

Zoning Ordinance Open House

The City of Fairburn will host an open house session on July 9, 2019 to give citizens an opportunity to review and comment on the rewrite of the Zoning Ordinance. The Zoning Ordinance is the tool that the city uses to regulate and define how property's in specific districts of the city can be developed. The City of Fairburn has initiated the Zoning Ordinance Audit/Rewrite to ensure that the Zoning Ordinance is compatible with the city's Comprehensive Plan. In addition, the city wants to ensure that the citizens of Fairburn have an Ordinance that is graphically illustrated, easy to read, and user friendly.

Join Us! Learn what city-wide regulations have been updated in the Zoning Ordinance; and find out how you can provide input and make comments on the draft Zoning Ordinance to help ensure that the City of Fairburn is "Situated to Succeed!"

Waste Industries is now part of GFL Environmental. You may begin to see new containers and trucks in the coming weeks, but rest assured it's the same great team that you've always known sporting a new coat of paint. The transition will be seamless to our customers and there's nothing you need to do on your end. However, we just want to keep you informed so that you are not alarmed if you receive a cart that's a different color than your neighbor or if you see a different color truck servicing your container. I can assure you that we are committed to providing you with the same level of service you've always received.
